

“Unifying Systems through Collaboration”

16-17 November 2023
Hybrid Event

South Africa System Dynamics Chapter (SASDC) is hosting our hybrid 11th annual South African System Dynamics Conference to create a networking platform for researchers to present novel work which contributes to **systems thinking, system dynamics (theory, methodology or empirics), systems engineering and operations research**. Extended abstracts should contribute to the conference theme of “**Unifying Systems through Collaboration**”. Topics may tackle the following subjects: **Health Dynamics/ Sustainability / Education/ Sociology and Psychology/ Economics/ Natural Resource Management/ Technology/ Policy and Governance/ Transport/ Hydrogen Economy/ Circular Economy**.
